

The Complete Package

RecordACall

digital recording
made simple

RecordACall

RecordACall Software Program

*A smart solution to
voice recording
and retrieval!*

RecordACall

Simplifies Creating Voice Recordings

RecordACall is a Windows®-based, feature-filled digital recording software program designed for simple installation and simple operation. With RecordACall you can **Record, Store, Search** or **Send** with a simple mouse click while you concentrate on your conversation and not your computer screen.

Packaged For Ease and Accessibility

Everything you need is included on one disc and comes with a key-sized license dongle (looks like a Flash Drive). You can load RecordACall on as many computers as you wish. And, you can do it on your time, at your convenience.

There's no downloading from, often confusing, online websites. **Record, Store, Search** or **Send** ... the smart and simple solution to your digital recording needs.

Compatibility is The Key

Today's telephone recording adapters are used throughout law enforcement, government agencies, brokerage houses, telemarketing centers, legal, medical, professional, personal, and a continuously growing list of applications, worldwide. RecordACall is compatible with most recording adapters and PC's, including the popular **LRX-35, LRX-37C** and the new **LRX-40USB**.

RecordACall Software Program... *The simplicity of voice recording at your fingertips!*

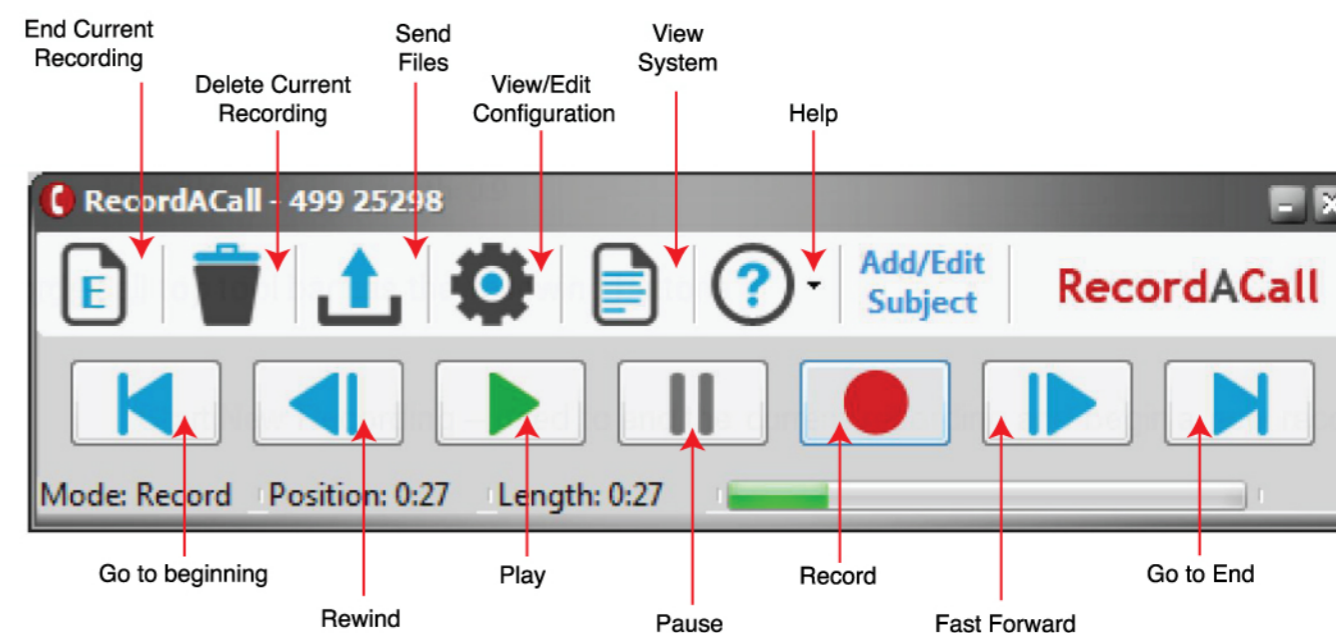

The Key to Efficiency

The small, key-sized, RecordACall license dongle is your key to voice recording freedoms. With this Dongle you can use RecordACall on any PC by simply inserting the dongle into a USB port on the computer.

How simple can it be!

The easy-to-read and understand RecordACall tool bar gives you quick and easy access to all your record, store, search and send capabilities.

Compatibility is Key ...

The window-based RecordACall Software Program is compatible with these popular telephone recording adapters.
